Graduations
Anniversaries
Family Reunions
Fundraisers
School Projects
Religious Functions
Company Picnics
Sports Tournaments

Get All This & More — Get all these features at half the price of more expensive software!

Make Impressive Movies in Minutes

Edit video and design your own DVDs in no time! Easily combine videos, music, and special effects into a cinema-quality movie.

Hundreds of Specials Effects

Choose from professional scene transitions, special effects, and animated text. Add intro and ending credits and soundtracks or commentary.

Give New Life to Low Quality Videos

Restore old clips with video cleaning tools. Improve poorly lit segments, sharpen pictures, reduce background noise, enhance colors, and normalize audio levels.

Convert Video Directly to DVD

The QuickDVD™ option captures video directly from any video device (even VCRs) and compiles your movie directly onto DVD in one simple step. Automatic scene detection creates a DVD menu with chapter navigation buttons—no additional work.

Turn Photos into SlideShow Movies

Create entertaining photo slide shows, complete with transitions, picture captions, and award-winning pan and zoom effects.

Transfer Directly to Mobile Devices

Automatically convert movies into optimized formats for iPod, iPhone, Sony PSP players, media players, PDAs, cellular phones, and all popular video devices—even publish to websites such as Facebook and YouTube.

Share Memories

Share Your Memories

Everything you need to produce
entertaining home movies!

VIDEOS

PHOTOS

MUSIC

Capture the
memories of any
occasion & share
with friends &
family.

Simply drag & drop to add or arrange video clips.
Preview video shows before publishing to save time.

Movies you can play anywhere!

Easily turn videos, photos, and music into
cinema-quality movies to enjoy in your living
room, mobile devices, and websites.

HOME

DEVICES

WEB

New!
Supports all
leading consumer
electronic devices
& websites
— no additional
software required.

1 Capture Photos
& Video

Capture video from camcorders,
Webcams, VCRs, cameras & other
video devices.

2 Enhance &
Repair Video

Give new life to low quality
video. Enhance colors, improve
lighting & reduce noise.

3 Assemble
Video Clips

Trim & edit video sequences
with a multi-track timeline &
storyboard editor.

4 Add Scene
Transitions

Create seamless transitions
between video clips — includes
automatic scene detection.

5 Add Text
Animations

Overlay video with scrolling,
animated text — perfect for
picture captions & credits.

6 Add Sound
& Music

Mix multiple tracks together to
produce a cinematic experience
in high quality audio.

Play Anywhere

Create Movies & Play Anywhere!

Personalize by adding sound effects, captions, and scene transitions!

Easily make blockbuster movies starring your friends & family.

Preserve your memories for future generations.

Convert & Play on Portable Devices

Watch your entertaining videos with any DVD player in the comfort of your home.

Play on iPod®, iPhone®, Sony PSP®, Sansa®, portable video player & websites.

Play on iPhone, Motorola, Treo and other video enabled cell phones & PDA's.

Supports video enabled Windows Mobile SmartPhones and 3GP/MP4 ready cellular phones and mobile PDA devices. Performance on other devices may vary.

Scene beginnings and endings are determined automatically and can be seamlessly combined into production-quality movies.

Adjust the volume of video clips or remove sound altogether.

Simply drag-and-drop to add video clips, music, and photos — get started quickly.

Fix poor quality film and optimize videos to create cinema-quality movies.

Add sounds and music with three audio tracks to fit movie length perfectly! Fade in and out audio for smooth music mixes.

Save time and get perfect results! Preview your movie in the player window before you publish.

Keep things exciting! Trim video clips and remove undesired segments.

Produce slow motion effects or speed up film to create funny, slapstick scenes.

Add photos with pan and zoom, scrolling text, video captions, images and more.

Perfect Hollywood-style movies with audio, special effects, animated text, and seamless scene transitions.

Play on iPod, Zune, PSP, Sansa, portable video players & websites.

Convert any photo, video, and music file into an optimized format for your portable device.

Convert media into portable formats — fast, high-quality conversions!

Quickly and easily convert any photo, video, and music file into an optimized format for playback on your favorite device or website.
